

Meeting: PESC Technical Advisory Board Meeting

Time: Thursday, December 9, 3 PM EST

Call-in Number: 1-866-352-3799 code: \*7696363\*

## Agenda

Topic	Lead	Approx. Time
Minutes Review	Michael	5 min
CCB: Structure of R&R	Michael	20 min
Edu1World Standardization Recommendation*	All	20 min
Meeting Summary	Michael	5 min

Minutes: Morris

\*Please use each of the features wiki, blog, etc to determine how they may be used by PESC

### R&R Problem:

The R&R can only contain one element name (but multiple versions) under one classification. The CCB has identified that different standards may use a different type definition for the same named element. For example, AcademicSummary has a AcademicSummaryFType (High School transcript) and also AcademicSummaryE1Type (in ETSR) definition. Since the R&R is organized as an element library and not a type library, these two definitions cannot co-exist under the same category. Our task is to determine how we can deal with multiple definitions of the same element name in the R&R:

- 1) Disallow it and change one of the definitions
- 2) Use different classifications to allow both definitions
- 3) Change the element name of one of the standards
- 4) Require all types to only use the name of the element with "Type" appended (unless using an xs; type which must be the same for all elements)
