Agenda

Topic	Lead	Approx. Time
Minutes Review	Morris	5 min
Status of XML R&R	Lou	5 min
PESC CAM Dictionary and Use	/Webber	40 min
Action item Summary	Morris	5 min

Minutes: Morris

Discussion:

Jam demonstrated loading the PESC dictionary in the CAM tool and the team reviewed the process of creating a schema from a exchange document.

Action Items:

- David will continue resolving the dictionary issues including how to import xs:groups and collapse xs:groups into complex type definitions.
- David will work on automating the import of definitions for elements and types
- Michael will deliver a list of elements and definitions from core-main 1.11 to David and the team.
