

# Minutes

---

Meeting: PESC Technical Advisory Board Meeting

Time: Thursday, December 9, 3 PM EST

Call-in Number: 1-866-352-3799 code: \*7696363\*

## Attendees

Jam Hamidi  
Steve Margenau  
Tim Cameron  
Sue Lou

## Agenda

Topic	Lead	Approx. Time
Minutes Review	Michael	5 min
HR-XML use of language attribute	Steve	25 min
CCB: Structure of R&R	Michael	15 min
Edu1World Standardization Recommendation*	All	5 min
Meeting Summary	Michael	0 min

Minutes: Morris

\*Please use each of the features wiki, blog, etc to determine how they may be used by PESC

## Summary

Steve discussed how HR\_XML handles languages in its schemas. Michael summarized the problem with the R&R and elements with the same name but different definitions (types). The team discussed the pros and cons of various approaches to solving the problem. In general the group is leaning toward a solution that would not change any existing schemas or instance documents. Finally, we reviewed some of the features of edu1world PESC site and determined some of its shortcomings.

## Action items

1. Jam will try to find a resource to help us understand how XML handles multiple character sets and different languages
2. Michael will inform Lauren about the upload problem Jam has to edu1world
3. Steve will continue his search of HR-XML and its qualification of languages
