Discussion

We discussed our approach to NIEM and determined two paths for use of these standards:

1. We work with the Department of Education and move our standards (including CEDS) to NIEM
2. We implement particularly good approaches from NIEM into the current PESC/FSA approach

We discussed the status of the programmer that is scheduled to start fixing bugs in the R&R in December.

Action Items

1. Michael will write up the issues with adopting NIEM and provide them to the team and Michael Sessa
2. Michael will find a NIEM resource to participate in the discussions. (It looks like David Webber is available.)
3. Sue will have the FSA developer attend the December 1 Conference Call
