Discussion:

1. Michael presented a proposal for replacing submission workbook with submission schema(s). The team also discussed issues with edu1world.

Decisions:

1. Michael will add Origin to the list of document properties so that this can be exported to the R&R.

Actions:

1. The team will read the DTS specification and come prepared to the next meeting to discuss how the proposed Web Service WSDL provides the same functionality
2. The team members will write down their issues with Edu1World and come prepared to discuss the recommendation for the Board next week.
3. Michael will modify the example schema as suggested during the meeting. This includes providing the annotation to the type instead of the element.
